SUMMARY

Software Engineer with 4+ years of experience in WordPress development, specializing in building scalable web applications, custom themes, and API integrations using PHP, HTML, CSS, and JavaScript. Currently transitioning towards backend development with hands-on experience in Java, SQL, and Spring Boot through project-based learning. Strong understanding of REST APIs and software development fundamentals.

EXPERIENCE

- **Software Engineer, FirstWire Apps** Jun 2024 – Present
 - Developed custom WordPress themes using PHP, HTML5, CSS3, and JavaScript.
 - Built WooCommerce-based e-commerce platforms with custom product pages and payment integrations.
 - Integrated third-party APIs (payment gateways, CRM) to enhance functionality.
 - Delivered SEO-optimized and responsive solutions improving user experience.
- **Software Engineer, Infoseek Software Systems** Feb 2022 – Jun 2024
 - Progressed from Intern to Junior Software Engineer within 2 years.
 - Developed responsive WordPress websites ensuring cross-browser compatibility.
 - Built and customized WordPress themes and plugins to extend functionality.
 - Improved UI interactions increasing user engagement by 20%.
 - Resolved bugs, optimized performance, and implemented CMS integrations.

PROJECTS

- **Stripe Payment Gateway Integration (Spring Boot, MySQL)**
 - Developed secure backend APIs integrating Stripe Checkout for payment processing.
 - Implemented full workflow including session creation, payment confirmation, and webhook handling.
 - Handled API request-response lifecycle and error scenarios effectively.
 - Ensured secure API communication and data validation.
- **JWLED E-Commerce Website**
 - Built WooCommerce-based e-commerce platform with custom product pages and payment integration.
 - Optimized website performance and loading speed, improving user experience and engagement.
 - Implemented SEO best practices including metadata optimization and responsive design.
- **Godamwale Logistics Website**
 - Developed logistics platform showcasing warehousing and fulfillment services with user-friendly interface.
 - Improved page load performance and ensured smooth navigation across devices.
 - Enhanced website usability by structuring content and optimizing frontend components.

TECHNICAL SKILLS

- **Programming Languages:** Java, SQL, Python (Basic), JavaScript, HTML5, CSS3
- **Frameworks & Libraries:** Spring Boot (Basics), REST APIs, WordPress, WooCommerce, Bootstrap, jQuery
- **Databases:** MySQL
- **Tools & Platforms:** Git, GitHub, Postman
- **Core Concepts:** OOP, DBMS, SDLC, API Integration, Responsive Design, JDBC
- **AI/ML:** Basic understanding of ML pipeline, data preprocessing, model training, and evaluation
- **Soft Skills:** Team Collaboration, Problem Solving, Time Management

CERTIFICATIONS

- JavaScript (Basic) – HackerRank
- SQL (Basic) – HackerRank

ACHIEVEMENTS

- Improved user engagement by 20% through UI enhancements in web applications.
- Successfully delivered multiple client projects within deadlines.
- Led a small team of developers in WordPress projects, coordinating tasks and ensuring timely delivery.

EDUCATION

- MCA, Dr. A.P.J. Abdul Kalam Technical University 2020 – 2022
- BCA, CSJM University Kanpur 2017 – 2020
